- **Discussion**

What is a Trust Port?

- We have been operating at the heart of the local community since our inception in 1760
- We don't have shareholders like a normal company, instead the profits we generate are reinvested in the Port to benefit our stakeholders.
- We are driven by our purpose which is to 'Improve the Port for everyone'

Masterplan 2022

Masterplan 2022

Improving our Port for everyone

1. We will get everybody home safe and well daily.
2. We will grow our Trust Port by increasing shipping.
3. Our industry leading cargo operation will be centred on the south of the Port.
4. Our estate on the north of the Port will continue to develop as a destination for communities, businesses and tourists.
5. Investment in our infrastructure and Green Energy Hub will continue.
6. Innovation and technology will enhance efficiency, profitability and services.
7. Collaboration will create a community of neighbours, charities, educational partners and local authorities.
8. Our culture will empower and grow colleagues across flexible and modern workplaces.
9. Our diversity will increasingly reflect society.
10. We consider our sustainability mission as urgent and will share our action plans regularly.

Anchor Points

The Royal Escape

- **1651 – Charles II flees via Shoreham**
Future monarch Charles II fled from the Roundheads after being defeated at the Battle of Worcester.
- **Nicolas Tettersell**
Charles II was introduced to Nicolas Tettersell, a local man who owned a small coal brig the 'Surprise'.
- **The Royal Escape**
Accompanied by Tettersell on the Surprise Charles successfully fled to Normandy. Charles returned to England in 1660, thankful for saving his life he made Tettersell a Captain in the Navy.
